CHAN-YEH CY-206 Mail Bag Machine

The CY-206 Mailbag machine is a robust and simple to use unit with reliable and easy to adjust analog controls (no difficult digital control panels), it makes bagging a breeze! Simply drop your article into the chute, in seconds it pops out fully sealed.

This machine uses polyethylene film in single sheet form, No more expensive Pre made plastic bags!

Operation:

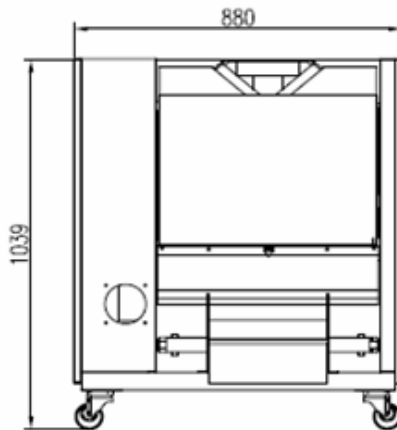

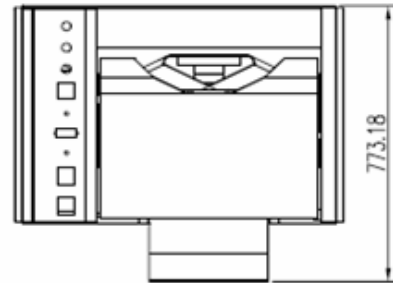

Turn machine on, attach air line to machine, adjust machine width/height to suit your product, and attach film to machine. You are now ready to start. Place your product in the infeed shoot and the machine will sense when the product is in the seal area and seal your product, the machine then drops the product out of the machine into the hopper.

Characteristics and strong points:

- *Adjustable temperature control
- *Safety Guarding
- *Hot wire sealing system
- *Pneumatic operation
- *suitable for A5/A4 up to 10mm thick

Power Requirements:
240v, 1 phase, 10 amp.
Air Required

Machine dimensions: (LxWxH)
880x774x1039mm
